

Hi Rachel

Accensi is a toll manufacturer of registered chemical products for the agricultural sector. In 2016 & 2017, there was a voluntary withdrawal of a small number of batches of products.

From our review of the questions you have provided to us, the ABC wishes to publish a story that will make reference to matters that are currently before the Supreme Court of Victoria.

Accensi understands that the ABC has obtained copies of the pleadings filed in the proceedings. Accordingly, the ABC would be aware that the proceedings are currently at a very early stage and evidence has not yet been filed.

It is Accensi's view that any comment by it in relation to the specific matters raised by the ABC would interfere with the administration of justice and could prejudice the preparation of Accensi's case in defence and the outcome of those proceedings.

Best regards,

Paul Barber
CEO, Australian Agribusiness
